

Columns whose name and type imply a relationship to another table's primary key

— ✕

Child Column	Implied Parent Column
adminpresets (tables/adminpresets.html).[userid]	user (tables/user.html).[id]
adminpresets_app (tables/adminpresets_app.html).[userid]	user (tables/user.html).[id]
adminpresets_app_it (tables/adminpresets_app_it.html).[configlogid]	config (tables/config.html).[id]
adminpresets_app_it_a (tables/adminpresets_app_it_a.html). [configlogid]	config (tables/config.html).[id]
assign_grades (tables/assign_grades.html).[userid]	user (tables/user.html).[id]
assign_submission (tables/assign_submission.html).[userid]	user (tables/user.html).[id]
assignment_submissions (tables/assignment_submissions.html). [userid]	user (tables/user.html).[id]
bigbluebuttonbn_logs (tables/bigbluebuttonbn_logs.html). [bigbluebuttonbnid]	bigbluebuttonbn (tables/bigbluebuttonbn.html).[id]
bigbluebuttonbn_logs (tables/bigbluebuttonbn_logs.html).[courseid]	course (tables/course.html).[id]
bigbluebuttonbn_logs (tables/bigbluebuttonbn_logs.html).[userid]	user (tables/user.html).[id]
bigbluebuttonbn_recordings (tables/bigbluebuttonbn_recordings.html).[courseid]	course (tables/course.html).[id]
block_recent_activity (tables/block_recent_activity.html).[courseid]	course (tables/course.html).[id]
chat_messages (tables/chat_messages.html).[userid]	user (tables/user.html).[id]
chat_messages_current (tables/chat_messages_current.html).[userid]	user (tables/user.html).[id]
chat_users (tables/chat_users.html).[userid]	user (tables/user.html).[id]
choice_answers (tables/choice_answers.html).[userid]	user (tables/user.html).[id]
comments (tables/comments.html).[contextid]	context (tables/context.html).[id]
competency (tables/competency.html).[scaleid]	scale (tables/scale.html).[id]
competency_evidence (tables/competency_evidence.html).[contextid]	context (tables/context.html).[id]
competency_framework (tables/competency_framework.html). [contextid]	context (tables/context.html).[id]
competency_framework (tables/competency_framework.html). [scaleid]	scale (tables/scale.html).[id]

Child Column	Implied Parent Column
competency_plan (tables/competency_plan.html).[userid]	user (tables/user.html).[id]
competency_template (tables/competency_template.html).[contextid]	context (tables/context.html).[id]
competency_templatecohort (tables/competency_templatecohort.html).[cohortid]	cohort (tables/cohort.html).[id]
competency_usercomp (tables/competency_usercomp.html).[userid]	user (tables/user.html).[id]
competency_usercompcourse (tables/competency_usercompcourse.html).[courseid]	course (tables/course.html).[id]
competency_usercompcourse (tables/competency_usercompcourse.html).[userid]	user (tables/user.html).[id]
competency_usercompplan (tables/competency_usercompplan.html). [userid]	user (tables/user.html).[id]
competency_userevidencecomp (tables/competency_userevidencecomp.html).[userevidenceid]	user (tables/user.html).[id]
course_completion_crit_compl (tables/course_completion_crit_compl.html).[userid]	user (tables/user.html).[id]
course_completions (tables/course_completions.html).[userid]	user (tables/user.html).[id]
course_modules_completion (tables/course_modules_completion.html).[userid]	user (tables/user.html).[id]
data_records (tables/data_records.html).[userid]	user (tables/user.html).[id]
editor_atto_autosave (tables/editor_atto_autosave.html).[contextid]	context (tables/context.html).[id]
editor_atto_autosave (tables/editor_atto_autosave.html).[userid]	user (tables/user.html).[id]
enrol (tables/enrol.html).[roleid]	role (tables/role.html).[id]
enrol_lti_resource_link (tables/enrol_lti_resource_link.html). [resourceid]	resource (tables/resource.html).[id]
event (tables/event.html).[courseid]	course (tables/course.html).[id]
event (tables/event.html).[userid]	user (tables/user.html).[id]
event_subscriptions (tables/event_subscriptions.html).[courseid]	course (tables/course.html).[id]
event_subscriptions (tables/event_subscriptions.html).[userid]	user (tables/user.html).[id]
feedback_completed (tables/feedback_completed.html).[courseid]	course (tables/course.html).[id]
feedback_completed (tables/feedback_completed.html).[userid]	user (tables/user.html).[id]

Child Column	Implied Parent Column
feedback_completedtmp (tables/feedback_completedtmp.html). [courseid]	course (tables/course.html).[id]
feedback_completedtmp (tables/feedback_completedtmp.html). [userid]	user (tables/user.html).[id]
feedback_sitecourse_map (tables/feedback_sitecourse_map.html). [courseid]	course (tables/course.html).[id]
forum_discussions (tables/forum_discussions.html).[userid]	user (tables/user.html).[id]
forum_grades (tables/forum_grades.html).[userid]	user (tables/user.html).[id]
forum_posts (tables/forum_posts.html).[userid]	user (tables/user.html).[id]
forum_queue (tables/forum_queue.html).[userid]	user (tables/user.html).[id]
forum_read (tables/forum_read.html).[userid]	user (tables/user.html).[id]
forum_subscriptions (tables/forum_subscriptions.html).[userid]	user (tables/user.html).[id]
forum_track_prefs (tables/forum_track_prefs.html).[forumid]	forum (tables/forum.html).[id]
glossary_entries (tables/glossary_entries.html).[userid]	user (tables/user.html).[id]
grade_import_values (tables/grade_import_values.html).[userid]	user (tables/user.html).[id]
h5pactivity_attempts (tables/h5pactivity_attempts.html).[userid]	user (tables/user.html).[id]
lesson_attempts (tables/lesson_attempts.html).[userid]	user (tables/user.html).[id]
lesson_branch (tables/lesson_branch.html).[userid]	user (tables/user.html).[id]
lesson_grades (tables/lesson_grades.html).[userid]	user (tables/user.html).[id]
lesson_timer (tables/lesson_timer.html).[userid]	user (tables/user.html).[id]
logstore_standard_log (tables/logstore_standard_log.html). [contextinstanceid]	context (tables/context.html).[id]
logstore_standard_log (tables/logstore_standard_log.html).[courseid]	course (tables/course.html).[id]
logstore_standard_log (tables/logstore_standard_log.html).[userid]	user (tables/user.html).[id]
lti_submission (tables/lti_submission.html).[userid]	user (tables/user.html).[id]
ltiservice_gradebookservices (tables/ltiservice_gradebookservices.html).[courseid]	course (tables/course.html).[id]
mnet_log (tables/mnet_log.html).[userid]	user (tables/user.html).[id]
mnetservice_enrol_courses (tables/mnetservice_enrol_courses.html). [roleid]	role (tables/role.html).[id]

Child Column	Implied Parent Column
payment_accounts (tables/payment_accounts.html).[contextid]	context (tables/context.html).[id]
post (tables/post.html).[courseid]	course (tables/course.html).[id]
post (tables/post.html).[coursemoduleid]	course (tables/course.html).[id]
post (tables/post.html).[userid]	user (tables/user.html).[id]
question_categories (tables/question_categories.html).[contextid]	context (tables/context.html).[id]
question_response_analysis (tables/question_response_analysis.html).[questionid]	question (tables/question.html).[id]
quiz_grades (tables/quiz_grades.html).[userid]	user (tables/user.html).[id]
rating (tables/rating.html).[scaleid]	scale (tables/scale.html).[id]
repository_instances (tables/repository_instances.html).[contextid]	context (tables/context.html).[id]
repository_instances (tables/repository_instances.html).[userid]	user (tables/user.html).[id]
scale (tables/scale.html).[courseid]	course (tables/course.html).[id]
scale (tables/scale.html).[userid]	user (tables/user.html).[id]
scale_history (tables/scale_history.html).[userid]	user (tables/user.html).[id]
scorm_scoes_track (tables/scorm_scoes_track.html).[userid]	user (tables/user.html).[id]
search_simpledb_index (tables/search_simpledb_index.html).[contextid]	context (tables/context.html).[id]
search_simpledb_index (tables/search_simpledb_index.html).[courseid]	course (tables/course.html).[id]
search_simpledb_index (tables/search_simpledb_index.html).[userid]	user (tables/user.html).[id]
stats_daily (tables/stats_daily.html).[roleid]	role (tables/role.html).[id]
stats_monthly (tables/stats_monthly.html).[roleid]	role (tables/role.html).[id]
stats_user_daily (tables/stats_user_daily.html).[roleid]	role (tables/role.html).[id]
stats_user_daily (tables/stats_user_daily.html).[userid]	user (tables/user.html).[id]
stats_user_monthly (tables/stats_user_monthly.html).[roleid]	role (tables/role.html).[id]
stats_user_monthly (tables/stats_user_monthly.html).[userid]	user (tables/user.html).[id]
stats_user_weekly (tables/stats_user_weekly.html).[roleid]	role (tables/role.html).[id]
stats_user_weekly (tables/stats_user_weekly.html).[userid]	user (tables/user.html).[id]

Child Column	Implied Parent Column
stats_weekly (tables/stats_weekly.html).[roleid]	role (tables/role.html).[id]
survey_analysis (tables/survey_analysis.html).[userid]	user (tables/user.html).[id]
survey_answers (tables/survey_answers.html).[userid]	user (tables/user.html).[id]
task_log (tables/task_log.html).[userid]	user (tables/user.html).[id]
tool_brickfield_process (tables/tool_brickfield_process.html). [contextid]	context (tables/context.html).[id]
tool_brickfield_process (tables/tool_brickfield_process.html). [courseid]	course (tables/course.html).[id]
tool_brickfield_schedule (tables/tool_brickfield_schedule.html). [contextid]	context (tables/context.html).[id]
tool_cohortroles (tables/tool_cohortroles.html).[roleid]	role (tables/role.html).[id]
tool_cohortroles (tables/tool_cohortroles.html).[userid]	user (tables/user.html).[id]
tool_monitor_events (tables/tool_monitor_events.html).[contextid]	context (tables/context.html).[id]
tool_monitor_events (tables/tool_monitor_events.html). [contextinstanceid]	context (tables/context.html).[id]
tool_monitor_events (tables/tool_monitor_events.html).[courseid]	course (tables/course.html).[id]
tool_monitor_history (tables/tool_monitor_history.html).[userid]	user (tables/user.html).[id]
tool_monitor_rules (tables/tool_monitor_rules.html).[courseid]	course (tables/course.html).[id]
tool_monitor_rules (tables/tool_monitor_rules.html).[userid]	user (tables/user.html).[id]
tool_monitor_subscriptions (tables/tool_monitor_subscriptions.html). [courseid]	course (tables/course.html).[id]
tool_monitor_subscriptions (tables/tool_monitor_subscriptions.html). [userid]	user (tables/user.html).[id]
user_lastaccess (tables/user_lastaccess.html).[courseid]	course (tables/course.html).[id]
wiki_locks (tables/wiki_locks.html).[userid]	user (tables/user.html).[id]
wiki_pages (tables/wiki_pages.html).[userid]	user (tables/user.html).[id]
wiki_subwikis (tables/wiki_subwikis.html).[userid]	user (tables/user.html).[id]
wiki_versions (tables/wiki_versions.html).[userid]	user (tables/user.html).[id]

Table	Rows
Anomaly not detected	

Tables that contain a single column

— ✕

Table	Column
Anomaly not detected	

Tables with incrementing column names, potentially indicating denormalization

— ✕

Table
assignment (tables/assignment.html)
assignment_submissions (tables/assignment_submissions.html)
data_content (tables/data_content.html)
data_fields (tables/data_fields.html)
enrol (tables/enrol.html)
enrol_paypal (tables/enrol_paypal.html)
grade_items (tables/grade_items.html)
grade_items_history (tables/grade_items_history.html)
quiz (tables/quiz.html)
search_simplifiedb_index (tables/search_simplifiedb_index.html)
stats_daily (tables/stats_daily.html)
stats_monthly (tables/stats_monthly.html)
stats_weekly (tables/stats_weekly.html)
survey_answers (tables/survey_answers.html)
tool_brickfield_summary (tables/tool_brickfield_summary.html)
user (tables/user.html)

Table
user_info_field (tables/user_info_field.html)
workshopform_numerrors (tables/workshopform_numerrors.html)

Columns whose default value is the word 'NULL' or 'null'
